

Advertise your business by having our packaging printed with your logo and get that extra professional look.

INSULATED BOXES

Starting from quantities of 500, all of our outer cartons can be branded with your logo. You can either have them delivered in one go, or you can call off the stock as and when you need it over an agreed period (usually 6 months). If a bespoke printed box is of interest, then please consider the following:

- How many colours would your logo include?
- What quantities would you require (greater than 500)?
- What size would you like?*

Please note that depending on the size you chose, the total number of pallets your goods will be split over can range from 5, up to 15.

*For the sizes IcerTech can offer, please take a look at our standard stock range.

COOLANTS

If you are using 5,000 coolants or more every month, then a bespoke printed coolant is definitely worth considering.

There would be an upfront cost for your own printed film, and then an on-going cost for the coolants. IcerTech agree to hold stock of the bespoke printed film for an agreed period of time enabling you to call off pallets of your own branded coolants as and when required. Points to consider are:

- What is your monthly usage?
- What size coolant do you require?

INSULATED CARRY BAGS

IcerTech can offer bespoke printed carry bags from quantities as low as 1,000. If this is of interest then please consider the following questions:

- How many colours would your logo include?
- White size bag would you like?
- Would you like a white or silver bag?
- What quantities would you like (greater than 1,000)?

BESPOKE PRINTED TAPE

We can supply bespoke printed tape from quantities as low as 72 rolls. For a quote on printed tape, send a copy of your logo to sales@icertech.co.uk, along with the quantity you wish to order.
